PURE na jomtien estate comprises the Seafront Terraces, the Central Park Residences, the Zenith Grand Hotel and the North Star serviced apartments together with a Beach Club for residents and their guests.

Beach Club

This is the ideal place to relax. Take a dip in the infinity-edge, freshwater pool, meet up with friends for a drink on the Seafront Patio or sample the al fresco delights from the chef's Mediterranean and Thai menu. Treat yourself to a massage, a relaxing spa or steam bath, a workout in the state-of-the-art gym; a quiet hour in the newspaper and magazine library, or simply indulge yourself with an end-of-the-day cocktail as you watch the sun sink over the horizon.

Seafront Terraces

Comprising six exclusive, low-rise condominium blocks, each between two and four storeys high, the Seafront Terraces are located either side of the Beach Club and offer commanding views over the Gulf of Thailand. Ideal for sunset lovers, there are 15 extra large front-row condominiums with living rooms and bedrooms in all the units facing the sea.

Central Park Residences

These four mid-rise condominium blocks, each of five or six storeys, are diagonally oriented to provide spectacular sea views across the Central Park. With an average of 55 apartments in each block, the Central Park Residences include eight penthouses. As with all condominium blocks in Thailand, 49 per cent are available for purchase by foreigners.

The Central Park includes the residents-only golf practice area, which comprises bunkers and greens for honing your pitching and putting skills. As if that's not enough, the Central Park Amphitheatre contains eight shaded and air-conditioned rooms with high-tech golf simulators. It also has entertainment facilities for gatherings of both adults and children, although extra care has been taken in the design to contain noise levels.

The Captain's Lookout

Located at the eastern end of the estate, this will accommodate the 24-storey, 260-room, four-star Zenith Grand Hotel and the 24-storey North Star Residences containing 280 serviced apartments. Both buildings will have unobstructed, panoramic ocean and city skyline views.

The Zenith Grand

The Zenith Grand Hotel will be developed jointly with a leading hotel group. With spacious rooms, all offering superb views, it will feature convention and seminar rooms; a range of dining areas including a roof-top restaurant; a spa and wellness centre offering massage, facials and body treatments; a sky pool and discreet indoor parking. Other quality services will include attractive boutiques and shops, a laundry, newsagent, postal services, bakery with coffee shop, grocery store, pharmacy and beauty parlour to name just a few.

The North Star

The neighbouring North Star Residences will include three penthouses and will be managed by the adjacent hotel. Whether you are here as an owner or a guest, you will still be able to enjoy the same high level of service and unrivalled sea views.
